Wawasee, Indiana, September 28, 1911

TO MEMBERS AND TO THOSE WHO OUGHT TO BE :

At the annual meeting of this Association several important propositions were dealt with and being of such a special nature, we desire to call your attention (if you were not present) to the minutes of said meeting, which are as follows:

The Wawasee Protective Association met on call of the Directors, Saturday, August 12, 1911, at 3 p. m., at the Wawasee Inn, Wawasee, Indiana, sixteen members being present. The President, Ellwood George, was in the chair. The reports of the Secretary and Treasurer were read and on motion of Mr. Chas. A. Sudlow were accepted and ordered placed on file.

Mr. Dan Zook reported the sale of the old launch belonging to the Association, to a Mr. Hire, for \$25, to be paid on or before Oct. 1, 1911. Mr. Zook guaranteed this payment, and upon motion of Bishop White, his action was approved by vote of Association

In the absence of Commissioner Geo. W. Miles, at his request, Mr. C. A. Sudlow submitted the outline of Mr. Miles' proposition looking to the establishment of a fish hatchery at the east end of the lake. The estimated entire expense of establishing this hatchery was \$1,200, which he proposed should be met by the Wawasee Protective Association, the Northern Indiana Improvement Company and the State of Indiana, each paying one third—\$400, the fish raised to be divided between Lakes Wawasee, and Papakeechee. After considerable discussion the following resolution offered by Mr. Zook was adopted without dissenting voice.

Resolved, that Wawasee Protective Association hereby expresses its hearty approval of the proposed establishment of a fish hatchery at Lake Wawasee, and hereby pledges its financial support to the extent of not less than \$400, and the secretary is hereby instructed to convey to Commissioner Miles this resolution and action.

On motion of Bishop White the By-Laws were amended making the annual dues \$5.00 and payable in advance.

On motion of Bishop White the Association proceeded to the election of Officers for the ensuing year, the election resulting as follows:

President—Ellwood George, Ft. Wayne.
Vice President—Daniel Zook, Nappauee.
Secretary and Treasurer, Geo. L. Xanders Syracuse.

BOARD OF DIRECTORS:

J. A. Van Osdale, Anderson,
Bishop John H. White, Vawter Park,
Elliott Durand, Chicago, Ill.

No further business appearing the meeting adjourned.

GEO. P. TORRENCE, Secretary.

Mr. Miles' proposition for the doing of some real good for Lake Wawasee is an excellent one. With a fish hatchery situated on Wawasee, there will be no better fishing lake within a radius of many a hundred miles, and for the fact that this Association is not required to expend \$360 yearly on a fish warden, the Association can well afford to do some tangible good for this beautiful Lake: Formerly the State of Indiana and the Association each contributed one-half to the maintenance of a fish warden in and about Lake Wawasee, but on Mr. Miles attaining the office of Fish and Game Commissioner, he has relieved the Association of this expense and placed it where it rightfully belongs.

The Association dock at the Baltimore & Ohio depot landing is now entirely unfit and unsafe for public use. A new up to date dock, well lighted along its entire length at night, must be built before summer of next year.

The paramount purpose of the Association is the supervision of the general welfare, the good and betterment of Lake Wawasee in every particular and it is for that purpose that the property owners have banded themselves together. United in an Association, something beneficial to the lake can be done, but as disinterested units miserable failure results. There are many avenues through which this Association can divert its energies, but these mentioned are the most pressing.

We would like to call attention of the members of the Association that the B & O. Railroad bridge over the channel near Syracuse will be elevated within the next six months to about 2½ feet above present position; this will enable all launches to travel back and forth from the lake and Syracuse, and will unite more closely the citizens of Syracuse and those living about the Lake. This also removes the bug-bear that

the Association for so many years has been attempting to push through. The B. & O. Railroad has no reason whatever for elevating these tracks save only upon the repeated requests of the Wawasee Protective Association and the citizens of Syracuse.

Now it's up to the property owners and all annual visitors to this lake to unite in a concerted movement toward the betterment of this lake. Don't let yourself imagine that the other fellow will do it all, it requires yourself to be with us. Swallow all petty jealousies, and if you can't build up, at least don't tear down. The general good and welfare of Lake Wawasee requires the united effort of each and every one of us to see that something is done, but nothing can be done without co-operation and funds. We ask that you take an interest in this matter. The annual dues are now reduced to within the reach of all, let us add your name to the membership roll. You cannot well afford to be among the missing. Forward a remittance to the Treasurer and also the NAMES AND ADDRESSES of those whose names do not appear on the present membership roll.

We trust you will take a special interest in this matter and at least we earnestly request a reply.

ELLWOOD GEORGE, President,
GEO. L. XANDERS, Sec'y-Treas.

To Members and to Residents About Lake Wawasee

Dear Sir:

Though this appeal will be sent to members of the Wawasee Protective Association, it is more particularly addressed to those who either own property on Lake Wawasee or are annual visitors at that Lake. It is these parties who are vitally interested in the welfare of Wawasee Lake and all that pertains to it.

There are many things needed and many things that should be done at Wawasee, but all these various things cannot be done at once, though some ought to be and should be done immediately. What we urgently need and **MUST HAVE** before the Summer season of 1912 opens, is a new up to date boat pier at the Baltimore & Ohio Depot landing. The old pier has not been safe for some years and cannot be put in shape for the coming season. A new pier must be had and also a better pier than was built some years back. This will require an expenditure of at least \$150.00, and to make this improvement there is now in the Association's Treasury about \$20.00

During the past year the membership in the Association has more than doubled; it is larger than any year since the first year of its existence, but with the annual dues reduced the income from its members remains about the same. \$300.00 has been paid toward the erection of the State Fish Hatchery and over \$100.00 on back indebtedness, leaving the treasury in its present state. At this point would like to state, a full and complete Treasurer's Report will be published and forwarded to members after annual meeting.

With the treasury in its present condition, it is evident that we will be required to increase our membership to gain more funds. This ought not to be difficult for there are many people about the Lake who are perfectly able and interested enough to pay \$5.00 for added improvements.

Must it be said of the non-members that they are willing to take advantage of the co-operation of others, use their pier, enjoy better fishing, etc., simply because they won't contribute \$5.00 annually toward maintaining some organization that intends to, in a measure, hold Wawasee inhabitants together in some banded unity?

The people of Syracuse cannot be called upon to assist in this matter, they have all they can do to raise in the neighborhood of a thousand dollars to install an electric lighting system for the present launch channel connecting Wawasee and Syracuse Lakes. They intend to keep the channel lighted every evening from dusk until 12 or 1 o'clock at night. This is being done in view of the fact that the Railroad bridge has been raised and now all launches without canopy tops can easily get from one lake to the other without discomfiture at this formerly impassable place.

If you are not a member of this Association, this letter applies to you. There is no valid reason why you should not come to our aid unless financially unable. It may be you will not wish to use a pier at depot landing, or enjoy better fishing, but there are other ends to which your support and co-operation is needed. What will you do in this matter, or will you let others do the doing?

Kindly communicate your intentions in this matter so that you will not again be asked to contribute if you do not intend doing so. Forward your remittance of \$5.00 to me.

Very sincerely,

GEO. L. XANDERS, Secretary and Treasurer.

Wawasee, Indiana, September 26, 1912

Minutes Annual Meeting of Wawasee Protective Association, August 3, 1912.

As the report of Secretary had been published and a copy of same forwarded to each member the reading of same was dispensed with. Report of Treasurer was submitted, approved and the same ordered published and a copy forwarded to each member of the Association.

A general discussion was held with reference to the Wawasee Fish Hatchery and it was reported that of the 400,000 small minnows just hatched and placed in fish hatchery last spring, 150,000 to 200,000 small bass, averaging three inches in length were just recently removed from Hatchery, $\frac{1}{3}$ being placed in Lake Papakeechee and $\frac{2}{3}$ placed in Lake Wawasee.

It was moved and carried that thanks of Wawasee Protective Association and congratulations of the same be extended to Hon. Geo. W. Miles, Indiana Fish and Game Commissioner, for the results obtained in his first year's work at the Wawasee Fish Hatchery and throughout the state generally and that a notice of this action be drafted in proper form and forwarded to him.

The following resolution was presented, approved and copies ordered forwarded to the proper B. & O. officials, including C. H. Bachelder, Supt., and T. J. Frazier, Zanesville, Ohio. **RESOLVED:** That the thanks of the Wawasee Protective Association be extended to the Baltimore & Ohio Railroad Company for the raising of its bridge over the Channel between Lake Wawasee and the Town of Syracuse.

The following resolution was presented, approved and a copy ordered sent to the President of the Syracuse Progressive Association and a copy delivered to the Syracuse Journal for publication in that paper. **RESOLVED:** That the thanks of this Association be extended to the Syracuse Protective Association for its enterprise in lighting the channel connecting Lake Wawasee and Syracuse Lake on which the Town of Syracuse is situated. Pres. of said Association being present then gave a friendly talk upon the better relations established between the people of Lake Wawasee and those of the Town of Syracuse and especially mentioned that the people of Syracuse were duly appreciative of the good will of the resorters about Lake Wawasee.

The following resolution to Hon. Geo. W. Miles, Fish and Game Commissioner of the State of Indiana was presented and after general discussion was approved and copies of same ordered sent to Commissioner and to Fish and Game Protective Associations throughout the state. RESOLVED: That the Wawasee Protective Association ask a closed fishing season to be established by the State Legislature for such portions of the various lakes of the state of Indiana as shall from year to year be designated and properly marked by the State Fish Commissioner, the same to be and remain closed for such periods of each year as the Legislature shall designate, but that the same cover at least the period from March 1, to June 15th of each year. AND IT WAS RESOLVED: That a committee of three be named to cooperate with the State Game and Fish Commissioner in securing the enactment of such legislation at the next session of the legislature as may be best calculated to protect the fishing in the lakes of the state. In the same, the following committee was appointed, J. A. Van Osdol, Anthony Deahl, and Geo. M. Kleeder.

The use of Association pier by non-members was discussed and it seemed the consensus of opinion that non-members be debarred from the use of the same and especially the public boatmen. The promiscuous use of boards, planks and large stakes in the setting out of trot lines was deplored as such articles are a menace to launches, every effort should be made to discourage their use.

The meeting then proceeded to the election of officers for the ensuing year. It was moved and carried that the present Board of Directors, Ellwood George, Daniel Zook, Geo. L. Xanders, J. A. Van Osdol, Rt. Rev. J. H. White, and Elliott Durand be reelected and that the Secretary be instructed to cast ballot of Association in accordance with same. It was moved and carried that Secretary be instructed to cast ballot of Association for Ellwood George as President of said Board and of said Association. It was moved and carried that the President cast the ballot of the Association for the election of Daniel Zook as Vice-President and Geo. L. Xanders as Treasurer and Secretary of said Association.

It was moved and duly carried that the Wawasee Protective Association affiliate itself with the state wide organization, known as the Indiana Fish, Game and Forest League, that the Secretary forward application and dues of \$5.00 to the same, and that the President of this Association represent the same at their next annual meeting.

Hon. Geo. W. Miles gave a short talk on his future plans as to the propagation of fish and game in the state of Indiana. He stated that it was his present plan to establish a State Fish Hatchery to supply fish to other lakes than Wawasee and Pakeechee, in the near vicinity of Lake Wawasee if he were able to obtain land for that purpose at a reasonable figure. Members present were urged to apply to Geo. M. Bower, United States Fish Commissioner at Washington, D. C., for small fish to stock Lake Wawasee, as same could be had from the Federal Fish Hatchery for the asking.

No further business appearing the meeting was adjourned.

GEO. L. XANDERS,
Secretary.

For the benefit of those members who were not present at the annual meeting, would like to state several facts which were presented at the annual meeting and of which no note was taken: The new pier at the B. & O. landing is constructed of first class cypress throughout and with ordinary care will last through many years of service, each member of Association should take sufficient interest in the proper use of pier so as to prevent others from damaging the same. The Association is in debt \$100.00 which falls due on or about October first; there is also due the State of Indiana toward the construction of Wawasee Fish Hatchery \$100.00, there will be also some maintenance expense which we will be required to bear. Membership totals over 100 with good prospects of additional names. Dues for this year are now payable and while your attention is called to the same kindly remit. If yours are payable you will observe that your name is blue penciled.

GEO. L. XANDERS,
Secretary and Treasurer.

Wawasee, Indiana, September 26, 1912

Minutes Annual Meeting of Wawasee Protective Association, August 3, 1912.

As the report of Secretary had been published and a copy of same forwarded to each member the reading of same was dispensed with. Report of Treasurer was submitted, approved and the same ordered published and a copy forwarded to each member of the Association.

A general discussion was held with reference to the Wawasee Fish Hatchery and it was reported that of the 400,000 small minnows just hatched and placed in fish hatchery last spring, 150,000 to 200,000 small bass, averaging three inches in length were just recently removed from Hatchery, $\frac{1}{3}$ being placed in Lake Papakeeche and $\frac{2}{3}$ placed in Lake Wawasee.

It was moved and carried that thanks of Wawasee Protective Association and congratulations of the same be extended to Hon. Geo. W. Miles, Indiana Fish and Game Commissioner, for the results obtained in his first year's work at the Wawasee Fish Hatchery and throughout the state generally and that a notice of this action be drafted in proper form and forwarded to him.

The following resolution was presented, approved and copies ordered forwarded to the proper B. & O. officials, including C. H. Bachelder, Supt., and T. J. Frazier, Zanesville, Ohio. **RESOLVED:** That the thanks of the Wawasee Protective Association be extended to the Baltimore & Ohio Railroad Company for the raising of its bridge over the Channel between Lake Wawasee and the Town of Syracuse.

The following resolution was presented, approved and a copy ordered sent to the President of the Syracuse Progressive Association and a copy delivered to the Syracuse Journal for publication in that paper. **RESOLVED** That the thanks of this Association be extended to the Syracuse Protective Association for its enterprise in lighting the channel connecting Lake Wawasee and Syracuse Lake on which the Town of Syracuse is situated. Pres. of said Association being present then gave a friendly talk upon the better relations established between the people of Lake Wawasee and those of the Town of Syracuse and especially mentioned that the people of Syracuse were duly appreciative of the good will of the resorters about Lake Wawasee.

The following resolution to Hon. Geo. W. Miles, Fish and Game Commissioner of the State of Indiana was presented and after general discussion was approved and copies of same ordered sent to Commissioner and to Fish and Game Protective Associations throughout the state. RESOLVED: That the Wawasee Protective Association ask a closed fishing season to be established by the State Legislature for such portions of the various lakes of the state of Indiana as shall from year to year be designated and properly marked by the State Fish Commissioner, the same to be and remain closed for such periods of each year as the Legislature shall designate, but that the same cover at least the period from March 1, to June 15th of each year. AND IT WAS RESOLVED: That a committee of three be named to cooperate with the State Game and Fish Commissioner in securing the enactment of such legislation at the next session of the legislature as may be best calculated to protect the fishing in the lakes of the state. In the same, the following committee was appointed, J. A. Van Osdol, Anthony Deahl, and Geo. M. Kleeder.

The use of Association pier by non-members was discussed and it seemed the consensus of opinion that non-members be debarred from the use of the same and especially the public boatmen. The promiscuous use of boards, planks and large stakes in the setting out of trot lines was deplored as such articles are a menace to launches, every effort should be made to discourage their use.

The meeting then proceeded to the election of officers for the ensuing year. It was moved and carried that the present Board of Directors, Ellwood George, Daniel Zook, Geo. L. Xanders, J. A. Van Osdol, Rt. Rev. J. H. White, and Elliott Durand be reelected and that the Secretary be instructed to cast ballot of Association in accordance with same. It was moved and carried that Secretary be instructed to cast ballot of Association for Ellwood George as President of said Board and of said Association. It was moved and carried that the President cast the ballot of the Association for the election of Daniel Zook as Vice-President and Geo. L. Xanders as Treasurer and Secretary of said Association.

It was moved and duly carried that the Wawasee Protective Association affiliate itself with the state wide organization, known as the Indiana Fish, Game and Forest League, that the Secretary forward application and dues of \$5.00 to the same, and that the President of this Association represent the same at their next annual meeting.

Hon. Geo. W. Miles gave a short talk on his future plans as to the propagation of fish and game in the state of Indiana. He stated that it was his present plan to establish a State Fish Hatchery to supply fish to other lakes than Wawasee and Papakeechee, in the near vicinity of Lake Wawasee if he were able to obtain land for that purpose at a reasonable figure. Members present were urged to apply to Geo. M. Bower, United States Fish Commissioner at Washington, D. C., for small fish to stock Lake Wawasee, as same could be had from the Federal Fish Hatchery for the asking.

No further business appearing the meeting was adjourned.

GEO. L. XANDERS,
Secretary.

For the benefit of those members who were not present at the annual meeting, would like to state several facts which were presented at the annual meeting and of which no note was taken: The new pier at the B. & O. landing is constructed of first class cypress throughout and with ordinary care will last through many years of service, each member of Association should take sufficient interest in the proper use of pier so as to prevent others from damaging the same. The Association is in debt \$100.00 which falls due on or about October first; there is also due the State of Indiana toward the construction of Wawasee Fish Hatchery \$100.00, there will be also some maintenance expense which we will be required to bear. Membership totals over 100 with good prospects of additional names. Dues for this year are now payable and while your attention is called to the same kindly remit. If yours are payable you will observe that your name is blue penciled.

GEO. L. XANDERS,
Secretary and Treasurer.

TREASURER'S REPORT
For the Year Ending Aug. 1, 1913.

GEO. L. XANDERS, Treasurer

RECEIPTS

Balance reported, August 3, 1912.....	\$ 24.34

 ELLIOTT DURAND, Chicago

Wawasee, Indiana, October 25, 1913.

Minutes Annual Meeting of Wawasee Protective Association, August 9, 1913.

Meeting was called to order by Ellwood George, President of the Association. Minutes of last meeting were read by Secretary and duly approved. An Auditing Committee composed of Rev. J. O. Mosier representing the Evangelical Association, and Rev. Geo. P. Torrence, was appointed to audit books of Treasurer.

In absence of the State Fish and Game Commissioner, Geo. W. Miles, the Secretary in his behalf called the attention of members present to the fact that no further financial aid was needed toward the State Fish Hatchery at the south end of Lake Wawasee, as in the future it was the intention of the State to take care of same by means of the increased funds on hand due to granting fisherman's licenses. The thanks of Association were tendered to the Fish and Game Commissioner.

The report of Secretary and Treasurer was read and referred to Auditing Committee for approval.

It was ordered that the Secretary investigate the account of E. E. Strieby and ascertain why items for 1909 appear on account, as Treasurer for that year reports same had been paid.

It was ordered that the President of Association see that a proper light be installed at the end of the Association dock.

It was ordered that the President and Secretary be empowered to hire the removal of any and all obstructions, stakes and logs, etc., from the waters of Lake Wawasee and to pay out of the funds of the Association for such removal. Several obstructions in Lake were reported.

Auditing Committee having audited the report of the Treasurer, reported as follows:

We, the undersigned, have examined the report of the Secretary and Treasurer and find same to be correct and in good order.

J. O. MOSIER,
 GEO. P. TORRENCE.

It was moved and carried that report of Auditing Committee be accepted and same discharged and that report of Treasurer be printed and a copy placed in the hands of each member of Association.

It was moved and carried that the Annual Dues for the fiscal year beginning August 1, 1913, be assessed at \$3.00 for each member, excluding the public boatmen, whose dues remain as heretofore at \$5.00, also members delinquent should pay whatever was due at time of delinquency.

It was ordered that the length of the Association dock at the Wawasee Station be increased 40 feet and that new sections of dock be constructed in accordance therewith.

It was ordered that President of Association be empowered to hire the removal of sand bars on each side of the Association dock, to a distance of at least 20 feet.

It was moved and carried that this Association offer a reward for the detection of any person molesting in any way the summer residence or other property of members of the Association and that suitable enameled tin signs be procured showing said offered reward and that the residence of each member of Association be properly tagged with same.

It was moved and carried, that in view of the recent drownings in this County and the fact that several lives could have been saved if proper first aid had been at hand, the President and Secretary should act as a Committee of two to investigate the cost of a pulmotor and report findings at the next annual meeting.

No further business appearing the meeting was adjourned.

GEO. L. XANDERS, Secretary.

Supplementing the formal report of the minutes, the attention of members is called to several facts and statements not appearing on same.

The dues of the Association are now \$3.00 per year, in fact so low that there is no excuse whatever for a member becoming delinquent. If you are now delinquent, kindly make it a point to at once forward your delinquent and current dues to Treasurer. The Treasury now shows a balance, but in view of the contemplated improvements, the dues of all the members will be required to cover the cost of same. No reduction was made in dues payable by boatmen as there can be no question but what they in the use of the Association pier derive much more benefit than any individual member and should pay accordingly.

The members of Association are kindly requested to inform the Secretary of any obstruction in Lake Wawasee, stakes, logs, etc. You may be the first to suffer from your own neglect in failing to report same.

Unless advised to the contrary the Association metal sign will be placed upon your cottage, providing your current dues are paid. The protection thus offered by the Association may in itself not be very much and yet it shows the proper spirit, to protect its members from thieves and marauders.

Your attention is also called to the fact that the resolution presented to Hon. Geo. W. Miles, Fish and Game Commissioner, and to other Fish and Game organizations throughout the state, requesting a closed season, bore fruit at the recent term of the Legislature, as will be noticed by the State preserve fishing signs posted at various places on Lake Wawasee.

Again the members are kindly asked to see to it that parties, malicious or otherwise, do not injure or destroy the Association dock, for it is the aim to keep this dock in first class condition and to do this requires the co-operation of all members.

Dear Sir:

You will find enclosed a copy of the minutes of the Wawasee Protective Association of last August. You are a cottage owner at Lake Wawasee and it certainly is not proper for you to take no part in Lake Wawasee affairs and you have not done so because your name does not appear on the roll of members.

We wish to undertake several more improvements about Lake Wawasee and desire all owners and annual visitors to be with us. As far as the membership fee is concerned, the amount is too trifling to be missed by you. Forward you check for \$3.00 and you will be promptly enrolled in the campaign for better things.

Yours very truly,

ELKHART, IND.

Dear Sir;

I desire to call your attention to the activities of the Wawasee Protective Association of which you no doubt have heard. The Association in the past has looked after various undertakings. In order to give you an idea of some of these undertakings, will enclose you a copy of some previous meeting.

At the present, due to the excessive burglarizing of cottages and the destruction of property, the Association is employing a watchman at a salary of \$125.00 per month to patrol the lake. This watchman is also appointed by the State of Indiana, as a Game Warden. We are getting excellent protection, but it is up to the cottagers to keep alive and support the Association in order to keep it going. To enable the Association to carry on its work, it must have more members. The present membership can only support its watchman for another couple months and therefore we need your membership and financial assistance. The dues are \$15.00 for the year, tho if you think this too much, a lesser amount will be accepted.

Altho this is a mimeograph letter, nevertheless your name has been handed in a a property owner who should be a member. Will you lend your co-operation and not allow others to keep the good work up.

Correspondence is solicited. Your check is the only formality in joining the Association. Send it now while this is before you.

PLEASE.

G

Very truly yours,
George K. Secretary.

Minutes Annual Meeting of Wawasee Protective Association, August 8, 1914.

Annual meeting called for July 26, 1914 was adjourned to August 8, 1914, there not being sufficient members present to transact business, Elliot Durand being President pro tem.

The meeting of the 8th of August was called to order by R. M. Pentreath, President pro tem. Minutes of last meeting and that of August 9, 1913, were dispensed with as each member had received a printed report of the Secretary and Treasure which was a copy of the same.

It was moved and carried that the Secretary notify any person or persons dumping sewage of any kind into the waters of Lake Wawasee that he or they were liable to arrest for so doing and if upon notification the offense was repeated, to cause the arrest of such party or parties.

It was moved and carried that this Association enter into an agreement with the citizens of Syracuse, Indiana, to enlarge the present Pickwick Channel, connecting Syracuse and Wawasee Lakes, pledging itself to bear one-half the expenses of such dredging; that the Secretary take up the matter with the Syracuse organization of citizens as to such pledge and also ascertain from the Sandusky Portland Cement Company and other contractors as to the probable cost of said improvement; that an assessment of \$5.00 be levied per member, in addition to the present membership fee of \$3.00, that the Secretary make a thorough canvas of the cottagers at Lake Wawasee and solicit memberships and assessments and that he be paid a reasonable compensation therefor.

It was moved and carried that the Secretary investigate the law with reference to lights on launches at night and furnish each member with a copy of the same.

It was moved and carried that this association purchase a Lungmotor and that the same be placed at the Sargent Hotel, subject to call by phone or otherwise.

Moved and carried that the following resolution be adopted, to-wit:

Resolved; That the Wawasee Protective Association heartily commend and endorse the policy of the Fish & Game Commissioner of the State of Indiana, Hon. Geo. W. Miles, for the efficient service given throughout the State, by himself and his department, in the protection and propagation of fish and game;

That the Secretary forward a copy of this resolution to the Governor of the State of Indiana and to the Hon. Geo. W. Miles and to such others who may be interested and attach thereto a copy of the membership of this Association.

Moved and carried that the dues of all public boatmen on Lake Wawasee be payable strictly in advance and that the Secretary notify them of this action.

Moved and carried that the Secretary in behalf of this association, write a letter of condolence to the President of the United States in respect to the recent loss of his wife.

Moved and carried that appropriate lights be placed on the Association pier and that the Secretary confer with J. M. Sargent for their purchase and that J. M. Sargent be paid for the upkeep of same.

Proceeding to election of officers, the following were elected: President, J. M. Sargent; Vice-President, J. G. Brannum; Secretary and Treasurer, Geo. L. Xanders; Directors, J. A. Van Osdol, G. M. Kleder, Elliott Durand.

On motion meeting was adjourned.

Geo. L. Xanders, Secretary.

Supplementary

Members are requested to report to the Secretary any person dumping sewage into Lake Wawasee or otherwise polluting its waters.

When in need of the lungmotor, phone to the Sargent Hotel and state at what point on the Lake the same is needed. Loose no time in doing this, minutes are very valuable when a human life is at stake. The Board of Commissioners of Kosciusko County have placed a pulmotor, which is also used for the saving of drowned persons, at the Harkless Machine Shop at the public landing in Syracuse. Phone or send a machine or fast motor boat for same.

Your attention is called to the dangerous practice of running launches after dark without lights. This is against the law. We should not be made aware of this after a catastrophe. There must be a light at each end of a launch. Kindly call the attention of non-members of the Association to this law so that they will not be arrested for its violation due to ignorance of same.

You will find enclosed a blank agreement with regard to the special assessment to provide funds with which to make a more permanent channel connecting the two lakes. This assessment will be collectible only in event the citizens of Syracuse meet us half way and if they do not, the same will not be made use of. We must have more funds with which to keep up the good work of the Association. An open channel, free from floating sods and other obstructions will appeal to most residents about this Lake and a lungmotor may be the very means of saving your own life or that of a near relative. It is estimated that the one-half pledge for dredging will amount to five hundred dollars. Do not let this appeal pass by, sign the card and forward to the treasurer. You will thereby save yourself from personal solicitation.

Minutes Annual Meeting of Wawasee Protective Association, July 31st, 1915.

Meeting called to order by Chas. A. Sudlow, President pro tem. Minutes of last meeting dispensed with, as each member had been forwarded a printed copy of same.

The printed report of the 1914 annual meeting of the Indiana Fish, Game and Forrest League was read by the Secretary who acted as official representative of this Association. The work of the league with regard to our Fish and Game laws was commended.

The Directors of said League having been called in session for the 5th of August, at lake Wawasee, Secretary was instructed to provide some suitable entertainment for them at that time, in the way of fishing, etc.

The matter of dredging in Wawasee lake during the summer months was taken up. Mr. Sudlow gave a history of the fight and compromise with the Sandusky Portland Cement Co. to the present date.

A resolution committee with reference to the Cement Co. complying with the contract of compromise they had entered into, consisting of Haines Egbert, W. R. McGarvey and Geo. L. Xanders, was appointed.

Moved and carried that the Secretary purchase suitable metal plates with the Wawasee Protective Association insignia on same for use on launches of members of the Association.

Moved and carried that this Association subscribe the sum of \$25.00 toward obtaining electric lights for the Association's walk and pier at Wawasee station.

Moved and carried that the Association obtain the services of a watchman to apprehend such parties who operate their launches without lights during the nighttime and cause their arrest for the violation of the law

Resolution committee reported as follows:—to-wit:

Resolved, that the Secretary of this Association, in behalf of certain Wawasee Property holders, be instructed to notify the officers of the Sandusky Portland Cement Co., that said Company is failing to comply with a certain contract existing between said Cement Co. and certain property holders around Wawasee lake, in dredging marl from said Lake during the summer months, thus rendering themselves legally liable under said contract to every property holder injured by the action of the said Cement Co. That a copy of said resolution be sent to the proper officers of the Cement Co. with a request that they give orders that will cause the contract to be complied with; that a committee be appointed to take such action as may be necessary if the Cement Co. refuse to comply with their contract.

Resolution unanimously adopted and the following committee was appointed: Haines Egbert, Frank Remy and W. R. Park.

Moved and carried that Secretary investigate the law with regard to the placing of stakes in lake Wawasee, which are likely to cause damage to launches.

(Over)

The town of Syracuse not assisting in re-digging the Pickwick channel, the matter was dropped for the time being.

The following officers for the ensuing year were elected: President, Haines Egbert, Vice Pres., J. G. Brannum, Sec. and Treas. Geo. L. Xanders, Directors in addition to officers, J. A. Van Osdol, Geo. M. Kleder and Elliot Durand.

On motion, meeting was duly adjourned.

GEO. L. XANDERS, Secretary.

Supplementary.

In event of drowning, phone for lungmotor at Sargents hotel and pulmotor at Harkless machine shop, Syracuse. Call any doctor at Syracuse and he will procure the pulmotor from Syracuse.

A light at each end of boat will save you from arrest if you run your launch after dark.

If you observe a dangerous stake in the lake, pull it up, you will thereby do others a favor as well as yourself.

Infractions of the Fish and Game Laws, should be reported to the Secretary at once.

The Sandusky Portland Cement Co. had agreed some years back, not to dredge in Wawasee lake, during the months of June, July, August and September, except in Conklin Bay, Johnson Bay and Jarrett Bay and not at any place on Sundays or at night. Hence the action in regard to same at the annual meeting.

Mr. Geo. Berg, Supt. of hatcheries has placed this August in Wawasee lake, 4000 large mouth bass fingerlings and 5000 blue gill minnows, and in Syracuse lake 1650 large mouth fingerlings.

OFFICERS

Haines Egbert, President, Goshen George M. Kleder, Director, Marion
W. M. Griffin, Vice-Pres., Ft. Wayne W. S. Ellis, Director, Anderson
Geo. L. Xanders, Sec.-Treas., Syracuse M. C. Honeywell, Director, Wabash

Minutes of Annual Meeting of Wawasee Protective Association, July 13, 1918.

Meeting called to order by the President, Haines Egbert. Minutes of previous meeting read and approved.

The Secretary read the minutes of the annual meeting of the Indiana Fish, Forest & Game League, held in October, 1917. The same being held in an off year, there not being a session of the State Legislature in January and February, following same, no important action was taken other than to endorse Gov. Goodrich's conservation bill, providing for the consolidation of several departments, Fish & Game being one of same, under one commission of several men.

The following were elected officers and directors, to serve for the ensuing year: Haines Egbert, President; W. M. Griffin, Vice-President; George L. Xanders, Secretary-Treasurer; George M. Kleder, W. S. Ellis and M. C. Honeywell, Directors.

The matter of garbage disposal was thoroughly discussed. It was moved and seconded that the Association communicate with the Indiana State Board of Health and request the services of an inspector to visit each cottage around Lake Wawasee and make an inspection of same, as well as to leave at each cottage a notice stating that all garbage or refuse must be either burned or buried.

The Secretary in conjunction with the President, was instructed to write to the official head of the Sandusky Cement Company to complain of the violation of their agreement with several members of the Association, concerning the proper use of their dredge in Lake Wawasee, and to notify them that continued violation of same will make it null and void and that the Association will then bend every effort to keep them out of Lake Wawasee altogether.

Attention of Association called to the fact that short bass are being removed from the Lake and Secretary instructed to notify Fish & Game wardens of said fact.

Most of the session was devoted to discussing the road situation about the Lake. It was called to the Association's attention that the principal reason for this condition was due to the fact that the tax road money was disbursed in putting in shape other roads about the township instead of the Lake roads and that this would probably continue until there was a change in the office of Township Trustee, which same would take place on January 1, 1919. Secretary authorized to solicit the road tax money from cottagers and spend the same on the Lake roads, obtaining the proper credit on taxes for those parties, paying in the same.

Moved and carried that the next annual meeting of Association be held at Vawter Park, to-wit:—JULY 12, 1919.

No further business appearing, the meeting was duly adjourned.

GEO. L. XANDERS, Secretary.

SUPPLEMENTARY

If you have not been furnished with the Association metal sign for your cottage, please call or advise Secretary of the fact.

Between July 1, 1917, and July 1, 1918, there were 34 convictions before the local Justice of the Peace for violating the Fish & Game laws, principally fish laws, of the State of Indiana. This includes: illegal netting, undersize bass, etc. Our wardens are doing something.

Last summer there were planted by the State Fish Hatcheries located here in Syracuse and Wawasee Lake approximately 5,000 small bass, and during the past week, 3,900 three-inch bass were planted in Lake Wawasee and 1,100 in Syracuse Lake. These are unusually large and ought to survive.

The Association intends to furnish proper evidence to the Health Department of the State for parties who do not properly dispose of their garbage and refuse.

Have someone work your road tax out on your piece of road, or on a road near your cottage.

The Association Lungmotors are at the Sarjent and Vawter Park Hotels.
